exp
REALTY

Impressive single-level living with the stately scale and presence. Soaring 11–16 ft. ceilings, oversized windows, and generous room proportions create a bright, open feel throughout. The spacious kitchen flows easily to the main living areas, while an exceptionally large bonus room offers endless flexibility as an office, game room, gym, golf simulator, or potential additional bedroom space. Outside, spacious usable grounds offer multiple entertaining areas and room for a future pool. An oversized 3-car garage with extra workspace and plentiful driveway parking add to the appeal. Quality construction, remarkable living spaces and a prime location just minutes from dozens of restaurants, extensive shopping, parks, trails, golf, and easy freeway access make this home truly stand apart.
